

Product details

Application 1. Widely used in various industries, such as food processing, pharmaceuticals, and electronics.

1. Widely used in various industries, such as food processing, pharmaceuticals, and electronics.
2. It is suitable for use in environments with high humidity and high temperature, and it is resistant to corrosion and aging.
3. It is easy to clean and maintain, and it is suitable for use in food processing and pharmaceuticals.
4. It is suitable for use in environments with high humidity and high temperature, and it is resistant to corrosion and aging.

It is suitable for use in environments with high humidity and high temperature, and it is resistant to corrosion and aging.

Material	Stainless steel, SMS, PP + PE
Structure	Elastic D-shaped structure, suitable for use in environments with high humidity and high temperature.
Dimensions	W 83 "X 35 "H L"
Weight	Lightweight and easy to handle.
