

## Disposable blue coverall zipper

Disposable blue coverall zipper is made by customized color PP material, we could also do other customized color as request. This disposable protective coverall is made from PP nonwoven high-performance isolation protective material. Usually been used for dust proof in medical safety protective, factory workshop and so on.

## Product Advantages

1. The disposable blue coverall zipper is special in most market, and we could do customized color as request.
2. The PP nonwoven material is the eco-friendly material, and make the body feels breathable and light cover. And that also makes the coverall being safety for everyone to wear, with no stimulus to skin.
3. Normally, PFE (Filtration efficiency of non oily particles)  $\geq$  30%. BFE (Bacteria filtration efficiency)  $\geq$  ( 99 %).
4. The normal PP nonwoven material is widely used for dust prevention.

## PP nonwoven material features:

This is made from hydrophobic polypropylene material, Latex-free; abrasion-resistant; low lint; and with a high level of fluid repellency.

The dark blue color is a customized color and we also could do other color as your request:

Available Color for choose: white, green, blue, yellow, orange and so on.

**Normal Material weight range:30-65gsm.And we could do the other weight material as your request.**
